3. Jordan	8. Nepal	13. Yemen
4. Malaysia	9. Nicaragua	
5. Maldives	10. Somalia	

Note:

Truvada for preexposure prophylaxis (PrEP) is approved for use in South Africa and Kenya, in addition to the United States. We have also filed for regulatory approval for this indication in Brazil (2014) and Thailand (2014).

Terms and Definitions

Approved: Dossier submitted and approved by country or no formal regulatory process in place; approval confirmed by country.

Filed: Dossier submitted and review pending.

Pending Submission:

Dossier has not been submitted to date; standard dossier filed - specific documentation required in order to further application process; or all relevant documentation provided to distributor for in-country submission (submission may be pending translation into local language).

Italicized: Countries where approval is granted via Notification and/or Import Permit. Notification refers to documentation, other than a registration dossier, that is reviewed and approved by the Health Authority; an Import Permit is an authorization by a competent authority for the importation of product into the country.

Asterisk (*): Product available through distributor.

Note

There can be no guarantee that marketing approval for Truvada® will be granted in any of the low- and middle-income countries where registration is pending; any marketing approval, if granted, may have significant limitations on its use.
