

WE ARE LOOKING FOR...

YOU TO HELP

Advance Care of People Living with Life-Threatening Diseases

Pharmaceutical Development & Manufacturing (PDM) Internship Program

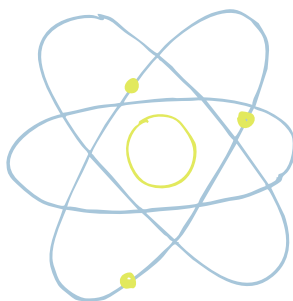

In PDM, we are responsible for all development and manufacturing activities encompassing process development, production, analytical operations, quality assurance, regulatory CMC, and supply chain management for Gilead's small molecules, biologics, and antibody-drug conjugates in development programs and commercial products. We transform scientific theory into therapy - our scientific focus has resulted in marketed products benefiting millions of people, a pipeline of late-stage drug candidates, and unmatched patient access programs to ensure medications are available to those who could otherwise not afford them.

Join us as we address unmet medical needs and improve lives by advancing the care of millions of patients worldwide.

What We Offer Within Early Talent and University Relations

- Paid summer internship program and full-time opportunities
- Real-life work experiences
- Opportunities include: Analytical Operations, Manufacturing, Process Development, Project Management, Quality Assurance, Project Development, Regulatory CMC and Supply Chain

TRANSFORM
**THEORY
INTO
THERAPY**

Required Qualifications

- Must be at least 18 years of age at the start of the internship
- Must be enrolled full-time in a Bachelor's, Master's, MBA, JD or PhD program at a nationally accredited U.S. college or university, with continued full-time enrollment required in the Fall semester following the internship.
- Must be currently enrolled as an undergraduate (freshman, sophomore, junior, or senior) or as a graduate/doctoral student.
- Must have a minimum overall cumulative GPA of 2.8 at the time of application and hire (official transcripts will be requested)
- Must be independently authorized to work in the United States now and in the future (current or future work authorization must not require school or employer sponsorship) official transcripts are required.
- Must be able to commit to a full-time internship lasting 10–12 consecutive weeks between May and August
- Must be willing and able to work at the designated site for the duration of the internship (relocation may be required). All internships are hybrid; fully remote roles are not offered.
