Gilead Sciences, Inc.
Corporate Political Contributions
January - June 2026

Gilead participates in the political process by contributing prudently to state and local candidates and political organizations when such contributions are permitted by state and local law. Generally, contributions are made to officeholders and candidates based on several criteria, including policy positions that reflect the interests of Gilead, our employees or the communities we serve; representation of geographic area where our employees and facilities are located; ability to be elected; and the need for financial assistance. Gilead's priorities for making political expenditures with corporate funds include furthering public health policy and scientific and health innovation.
