

Counterfeit TRODELVY® (sacituzumab govitecan) Product Notice

Gilead Sciences Farmacêutica do Brasil Ltda. (Gilead) has identified counterfeit TRODELVY® (sacituzumab govitecan) products labeled in Turkish in the Brazilian market, bearing batch numbers 10008808 and 10008806. These counterfeit products were imported from Turkey.

The Brazilian Health Regulatory Agency (ANVISA) issued a public notice through [Resolution RE No. 3,242, dated August 14, 2026](#), providing important information to help Brazilian citizens identify counterfeit products, raising awareness and promoting patient safety. The ANVISA notification dated August 14, 2026, refers to batch number 10008808. Gilead clarifies that both batch numbers 10008806 and 10008808 are involved, in order to assist in the identification of counterfeit TRODELVY products in Brazil.

Gilead is the only company authorized to market TRODELVY® in Brazil through authorized distributors and reaffirms its commitment to transparency, quality, and the safety of medicines dispensed and administered to patients. Patient safety is Gilead's highest priority. For this reason, the company remains committed to ensuring that patients and healthcare professionals have access to legitimate and properly authorized products.
