

### Additional Information on Gilead Sciences 2023 Patient Organisation Support Disclosures

The organisations listed below were originally included in the Gilead Sciences EFPIA Patient Organisations Support 2023 - United Kingdom & Ireland disclosure, published in June 2024.

Following a review in 2026, these organisations have been reclassified as Healthcare Organisations (HCOs). As a result, the transfers of value detailed below are no longer reported under our 2023 Patient Organisations disclosure report and will shortly be disclosed on [Disclosure UK](#), the ABPI's disclosure database, following an update to Gilead's HCO disclosures. For further information on the methodology Gilead uses in the UK and Ireland to identify, calculate, classify and disclose transfers of value (financial and non-financial support) provided to patient organisations and members of the public, please refer to Gilead's Methodological Note.
